RIDE READ AND PLAY

Meeting with the Mayor of Montego Bay, Richard Vernon — May 15th, 2026

In the presence of Ms. Khalicia Christie, Administrative Assistant,
and for Jamaica Skate Culture: Remi Walter and Marc King.

A New Landmark for Montego Bay
A City in Motion

- Creating a space of absolute social mixing that actively dismantles barriers across classes and generations.
- Forging a modern, iconic tourist attraction that proudly redefines Montego Bay's global cultural landscape.
- Elevating everyday community infrastructure into a profound, living legacy built on unity and motion.

A legacy where concrete and culture meet to elevate the spirit of the city.

A Visionary Dream for Montego Bay

- Create one landmark where youth, families, seniors, and visitors meet.
- Blend a modern library with an eco-friendly skatepark for daily life and discovery.
- Turn social inclusion into a new symbol of civic pride and tourism appeal.

A city grows stronger when every generation shares the same space.

Make Montego Bay the Next Big Stop

- Host the next Jamaica Skate Culture Tour stop to spark instant visibility.
- Activate youth, schools, local businesses, and families through a citywide event.
- Use the tour as a launchpad for long-term community ownership of the site.

A great event does more than entertain—it starts a movement.

A Safe Haven for Youth and Families

- Offer a secure, supervised place that reduces wandering and unhealthy screen time.
- Build trust through calm design, active presence, and welcoming spaces for all.
- Use sport and culture to bridge communities and strengthen social peace.

Prevention begins when young people have somewhere safe to belong.

People Bring the Place to Life

Remember: a skatepark is only concrete without human guidance and daily care.

Build a passionate local crew trained through instructor development and strong management programs.

Empower local staff, mentors, and coordinators to animate, maintain, and protect the site every day.

A great place succeeds when local people are trained, trusted, and inspired to lead it.

Where Movement Meets Learning

- Connect physical activity, reading, study, and creativity in one daily destination.
- Design the complex with shade, greenery, water care, and eco-conscious materials.
- Make the site a living example of healthy, sustainable urban development.

When body and mind grow together, a city invests in its future.

RIDE AND READ

A priceless place to train the body and feed the mind, far from the grip of endless screens.

Skate, paint, read, listen, learn, and connect—discovering yourself while meeting others.

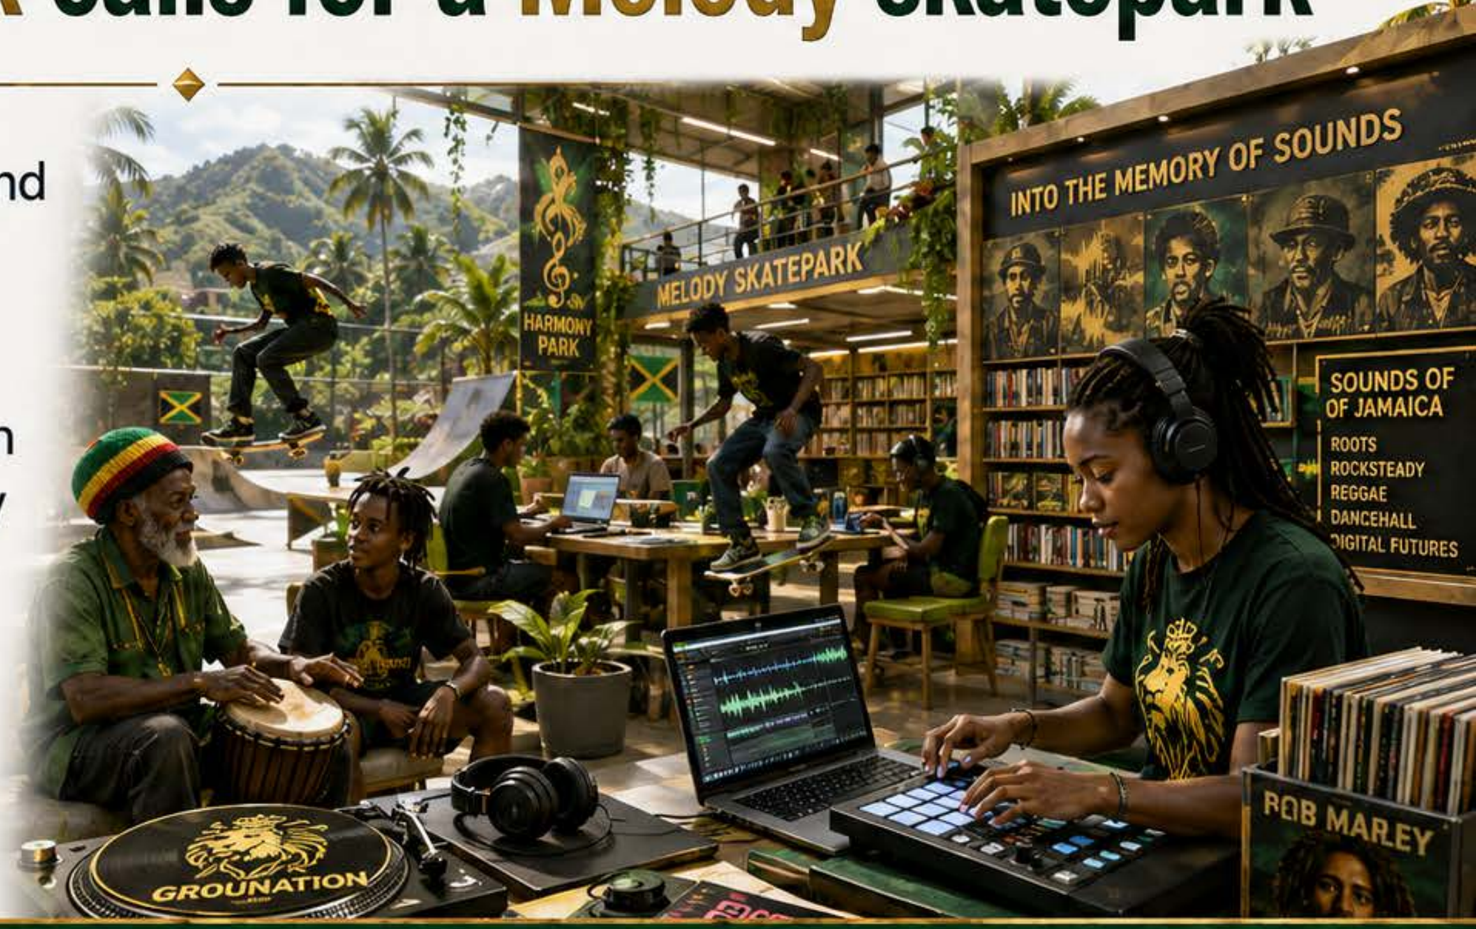

Books, vinyl, art, and movement can revive a city, beautify concrete, and empower youth.

Ride and Read reconnects body and mind, memory and future, youth and city.

An Harmony Park calls for a Melody skatepark

- Blend books, digital studios, and vinyl archives in one living multimedia library.
- Give youth access to Jamaican music—a gift to the world they must inherit and shape.
- Honor deep roots, from digital beats back to authentic Grounation traditions.

A city that protects its sounds protects the soul of its future.

A Harmony Park calls for a Melody

- Recognizing that an authentic library built in the heart of Jamaica can never be truly silent.
- Curating “the memory of sounds” through cutting-edge digital creations and localized multimedia archives.
- Housing an organic vinyl collection to proudly transmit our deep, resonant musical DNA to the youth.

We do not just preserve our history in books; we feel it in our rhythm.

LISTEN AND LIVE

A priceless place to train the body and feed the mind, far from the grip of endless screens.

Skate, paint, read, listen, learn, and connect—discovering yourself while meeting others.

Books, vinyl, art, and movement can revive a city, beautify concrete, and empower youth.

Listen to the sound of your heart, as you thrive, you're alive... Ride, Read, Listen and Live !

Be the Founders of This Legacy

- Champion a project that unites prevention, education, culture, and urban pride.
- Co-create a landmark that future generations will identify with Montego Bay.
- Lead the vision, mobilize partners, and bring this dream out of the ground.

Great cities are remembered by the leaders who dared to build for the future.

The Founder's Call

- Positioning true civic leaders as those who successfully reconcile the memory of the past with the motion of the future.

- Empowering the heart of the nation by physically building a transformative new chapter in Jamaica's history.
